EDUCATION

Haramaya University, Oromia,

Ethiopia Bachelor of Science in Information Technology

July 2019 - June 2024

- I will graduate in June 2024

PROJECTS

Portfolio Website

- I created a personal portfolio website to showcase my projects and skills using Astrojs and Tailwind CSS.

Student Management Website (Volunteer Project on-progress)

- Developed a Student Management Website for my previous high school, demonstrating a commitment to the community through voluntary action.
- This web platform, powered by Next.js, Prisma, MongoDB, and Tailwind CSS, offers high schools a tailored online presence to showcase essential information, events, and announcements.
- The use of modern technologies ensures a seamless user experience while meeting the unique needs of each school.

Bookmark App (2023)

- I created a bookmark management application using Next.js, Tailwind CSS, Prisma, and MongoDB.
- Allowed users to organize and manage their bookmarks efficiently.

Printer Management System (2022)

- Designed and implemented a printer management system using PHP to streamline printer usage in an office or educational setting.
- Enabled users to track and manage print jobs and printer status.

Research Grant Management System (2023)

- I built this project for Dabark University using my internship.
- Developed a research grant management system using React, Node.js, and MongoDB. Facilitated the application and review process for research grants, enhancing efficiency.

SKILLS

A versatile full-stack developer with expertise in various technologies, including **Next.js**, **Remix**, **Prisma**, **MongoDB**, **Express**, **React**, **React-Native**, **Ionic Svelte**, and **GraphQL**. With a strong focus on delivering tailored solutions and applications, I bring innovation and efficiency to every project.

Language

English, Amharic
