

TEWODROS BIRHANU

Full-Stack Software Developer | React · React Native · Next.js · Node.js · TypeScript

onesamket@gmail.com · +251 91 803 9771 · Addis Ababa, Ethiopia · onesmaket.com · t.me/onesamket · github.com/onesamket · linkedin.com/in/ln-onesamket

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Developer with 4+ years of experience designing and delivering scalable web, mobile, and desktop applications. Proficient in TypeScript, React, Next.js, React Native, Node.js, and the TanStack ecosystem with hands-on experience across the full development lifecycle — from architecture and API design to cloud deployment and performance optimization on AWS. Passionate open-source contributor with 7+ end-to-end projects shipped to production. Adept at collaborating in remote and cross-functional teams.

PROFESSIONAL EXPERIENCE

Frontend Developer · Full-time

Joveo | Feb 2026 – Present | Remote

- Develop and maintain high-performance frontend interfaces for a global recruitment marketing platform serving enterprise clients.
- Build reusable React and TypeScript component libraries using TanStack Router and TanStack Query, improving development speed and UI consistency across product teams.
- Implement responsive, accessible web dashboards integrated with REST APIs, enabling real-time job distribution analytics and reporting.
- Collaborate with cross-functional teams in an Agile environment; contribute to AWS deployment pipelines (S3, CloudFront) for frontend hosting and CDN optimization.

AI Trainer · Contract

Revelo | Feb 2026 – Apr 2026 | Remote

- Evaluated and annotated AI-generated code outputs to improve model accuracy and alignment with real-world software engineering standards.
- Provided expert feedback on TypeScript, React, and Node.js code quality, logic correctness, and best practices to refine LLM training datasets.
- Identified edge cases and failure modes in AI responses, contributing to measurably safer and more reliable model behavior.

Senior Frontend Developer · Part-time

Robotech Technology | May 2025 – Feb 2026 | Hybrid · Addis Ababa

- Led development of cross-platform mobile applications using React Native, delivering polished iOS and Android experiences.
- Built and optimized internal web dashboards using Next.js and TypeScript, reducing page load times and improving team productivity.
- Designed e-commerce frontend flows including product listing, cart, checkout, and order tracking with seamless UX.
- Established frontend architecture patterns and code review standards adopted across the engineering team.

Frontend Developer · Full-time

Private Client | Jan 2023 – Feb 2026 | Remote · 3 yrs 2 mos

- Architected and delivered a full-featured web platform with focus on seamless UX, performance, and maintainability using Next.js and Tailwind CSS.
- Integrated WebRTC for real-time communication features including video/audio calls and live collaboration capabilities.
- Set up and maintained CI/CD pipelines via GitHub Actions, automating build, test, and deployment workflows to Vercel and Railway.
- Implemented SEO best practices and Core Web Vitals optimizations, achieving strong Lighthouse performance scores.

React Native Developer · Freelance

Propheticus Technologies | Aug 2024 – Feb 2025 | Remote · 7 mos

- Developed and maintained cross-platform React Native applications for iOS and Android, delivering high-quality mobile user experiences.
- Collaborated with design and backend teams to implement RESTful API integrations, offline capabilities, and push notification systems.
- Built internal tooling that reduced manual QA time by streamlining test coverage for critical user flows.

KEY PROJECTS

Orthodox Mezmur & Podcast Platform — Full-Stack Developer

- Built a secure, scalable backend powering user management, audio streaming APIs, album/hymn modules, and admin CMS using Node.js and PostgreSQL.
- Developed the frontend with Next.js and Tailwind CSS, delivering a seamless content browsing and playback experience for end users.
- Designed RESTful APIs serving high-concurrency audio content delivery and integrated Supabase for auth and real-time features.

Geez Number Converter — Open Source Library

- Published a type-safe TypeScript library for bidirectional Arabic-Geez numeral conversion, used by Ethiopian developers.

YouTube Clone — Full-Stack Web App

- Built a feature-complete YouTube clone with Next.js, Tailwind CSS, and shadcn/ui, demonstrating advanced React patterns and API integration.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES2022+), TypeScript, HTML5, CSS3, SQL

Frontend & Mobile: React, Next.js, React Native, Expo, Remix, TanStack Router, TanStack Query, TanStack Table, TanStack Form, Tailwind CSS, shadcn/ui, Apollo Client

Backend & APIs: Node.js, Express.js, NestJS, Encore.ts, REST, GraphQL, Apollo Server, WebRTC, Socket.io

Databases & ORM: PostgreSQL, MongoDB, Prisma ORM, Supabase

Cloud & Deployment: AWS, Supabase, Vercel, Railway, Render, Docker

AI & Vibe Coding: Cursor, GitHub Copilot, v0 by Vercel, Bolt, Lovable, Claude, ChatGPT — proficient in AI-assisted development workflows

Tools & Version Control: Git, GitHub, GitHub Actions (CI/CD), Linux, Nginx

EDUCATION

Bachelor of Science in Information Technology

Haramaya University | 2020 – 2024 | Haramaya, Ethiopia

Self-Directed Engineering Development

Online Platforms (Udemy, freeCodeCamp, dev.to) | 2021 – Present

- Regular author on dev.to (onesamket_dev) covering TypeScript, React, and open-source tooling.

ACHIEVEMENTS & INTERESTS

- Delivered 7+ production-grade, cross-platform applications spanning web, mobile, and desktop.
- Maintainer of open-source npm libraries with active community adoption.
- Active contributor to the open-source ecosystem with repositories on GitHub (github.com/onesamket).
- Stays current with emerging technologies through technical writing, reading, and community engagement.

LANGUAGES

English (Professional proficiency) **Amharic** (Native)
